**Verification of OSHA Training and Compliance**

This document is to verify that \_\_\_\_\_ (student) has been educated in compliance with the final regulations issued by the Environmental Health and Safety governing student/employee exposure to bloodborne pathogens in the school/workplace under Section VI(b) of the Occupational Safety and Health Act of 1970, which regulations become effective March 6, 1992, and as may be amended or superseded from time to time (the "Regulations"), including but not limited to responsibility as "the employer" to provide all employees (allied health students) with:

- (a) information and training about the hazards associated with blood and other potentially infectious materials,
- (b) information and training about the protective measures to be taken to minimize the risk of occupational exposure to bloodborne pathogens,
- (c) training in the appropriate actions to take in an emergency involving exposure to blood and other potentially infectious materials, and
- (d) information as to the reasons the employee should participate in hepatitis B vaccination and post-exposure evaluation and follow-up
